

Asleep at night, have you ever dreamed about the hereafter? Drifting in and out of slumber, you may ask yourself, “*Is there a God and a Heaven?*” Taking comfort in that belief, you drift back to sleep but soon awaken to another question, “*Could there be a Devil and a Hell?*”

Have you made mistakes in life? Did that error in judgment cause the death of another human being? Did the guilt become an intractable thorn piercing your soul? Did you ask God for forgiveness? *Baby’s Breath* pulls you into the lives of two close friends in Hallowed, Ohio as they confront their regrets.

Claire’s procrastination and Anne’s tragic decision lead to the death of an innocent person. When the deed is done, these two best friends begin a terrifying journey into the realm of demons and angels. Amidst the rubble of their broken dreams and hearts and spirits, they search for a path out of their entanglement with evil.

BD McDuff unearths dark secrets in *Baby’s Breath* as though digging through the remnants of a hurricane’s destruction. Along with Claire and Anne, you will free-fall down a terrifying wall, grasping for any reality to hold onto.
